HIGHLINE PRODUCT BASKET

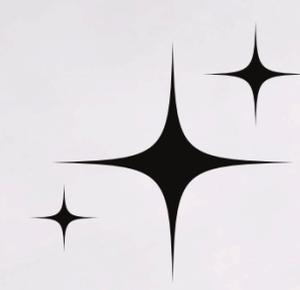

Metal Ceilings

- Baffle Ceiling
[Extruded, Roll Formed, Clip In]
- Open Cell Ceiling [Triangle, Square]
- Metal Mesh Ceiling [Heavy, Small, Diamond]
- Grid Ceiling [Lay In, Clip In type]
- Hook On Ceiling
- Corrugated Cladding Linear Ceiling
[85C, 200C, Multi Box]
- Torsion Spring Ceiling

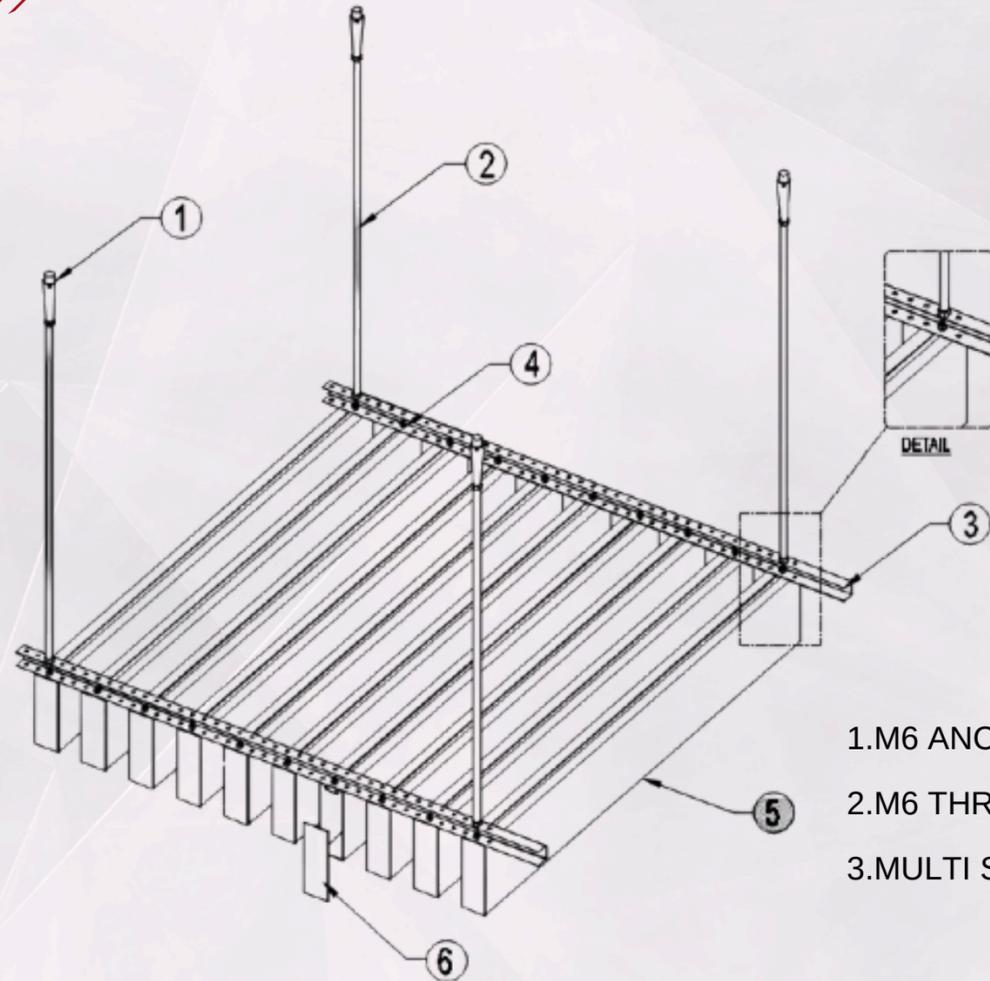

Metal Ceilings

Extruded Baffle Ceiling

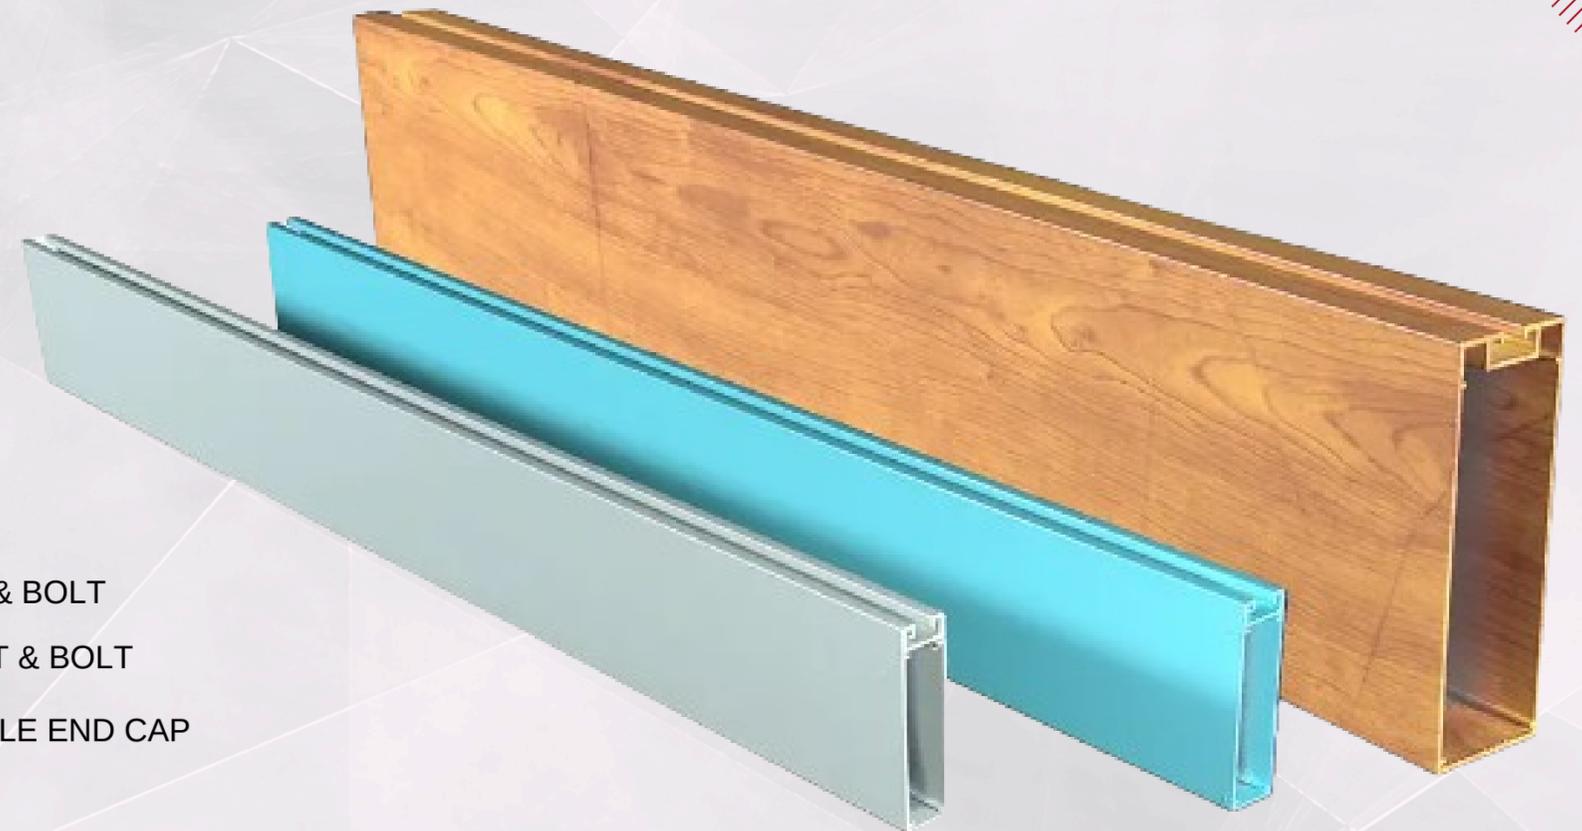

Also known as Barrier Ceiling System, it offers a characteristic appearance to any room, thanks to its broad openings exhibiting a three-dimensional view with clear and bright angular lines. Offering a spatial pattern with a linear open ceiling, it provides ease of access to the plenum in case of maintenance or additional installations needed to be done. Baffles are lightweight and do not add extra load on the ceiling which can be installed throughout the room or just the part of it. It is also suitable to be installed on straight or curved surfaces.

It can be easily mounted and dismantled also the shape and dimension can be optimized to suit the project requirement. Specifically suited in places that demand high sound quality like theatres, conference rooms, concert halls and places where sound quality is important.

- 1.M6 ANCHOR FASTENER
- 2.M6 THREADED ROD
- 3.MULTI SLOT CARRIER

- 4.NUT & BOLT
- 5.4.NUT & BOLT
- 6.BAFFLE END CAP

Metal Ceilings

Extruded Baffle Ceiling

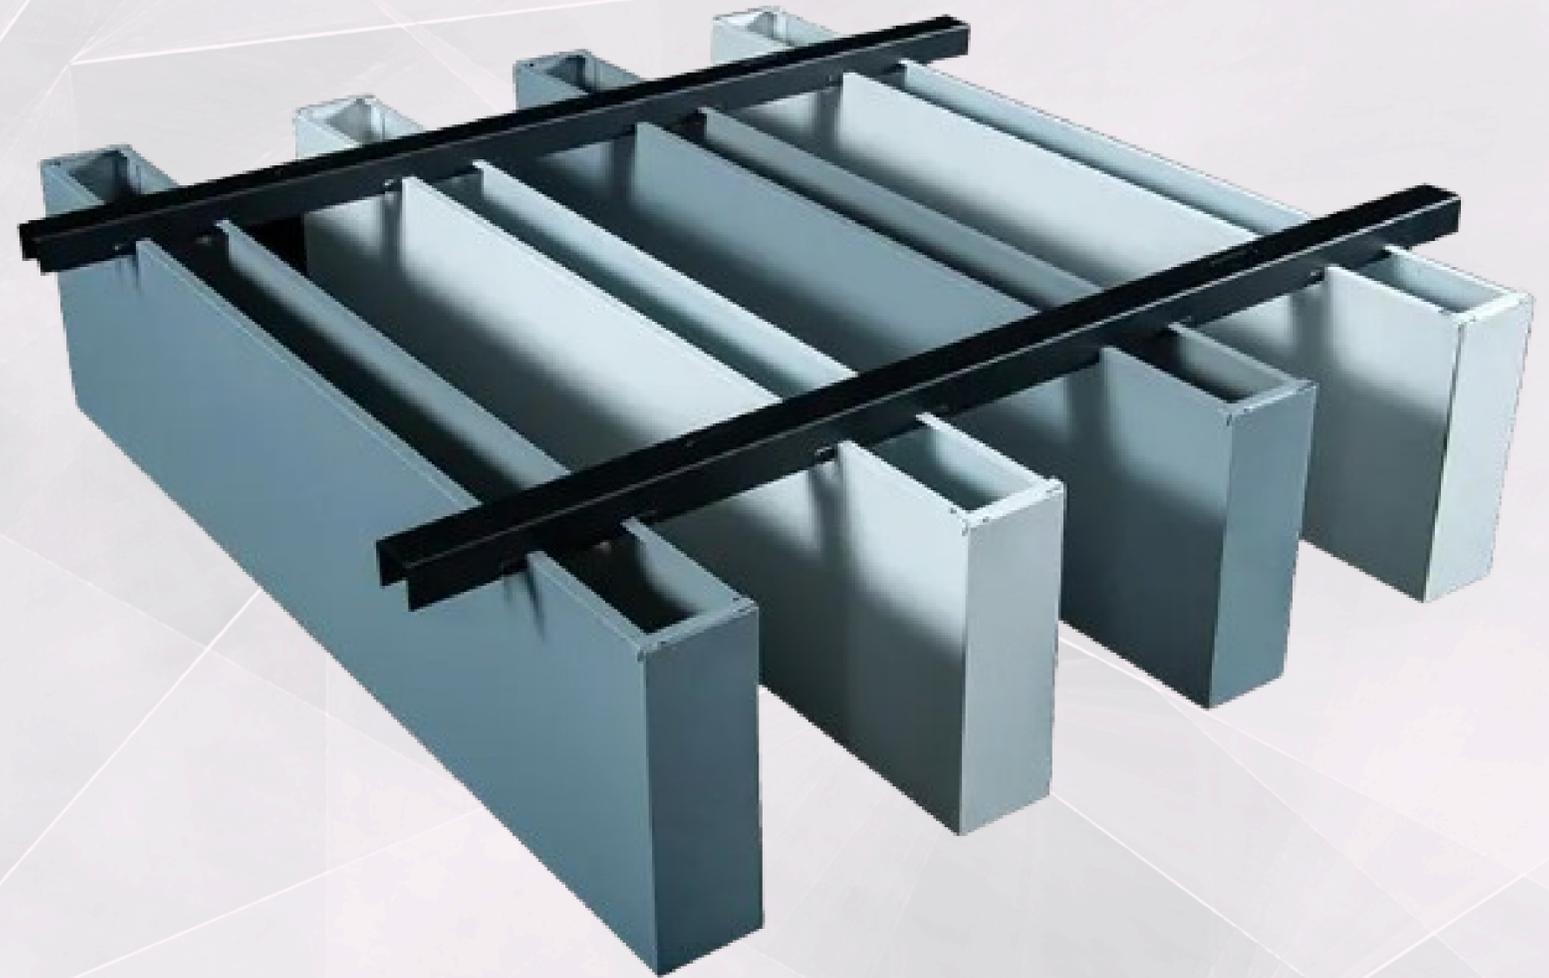

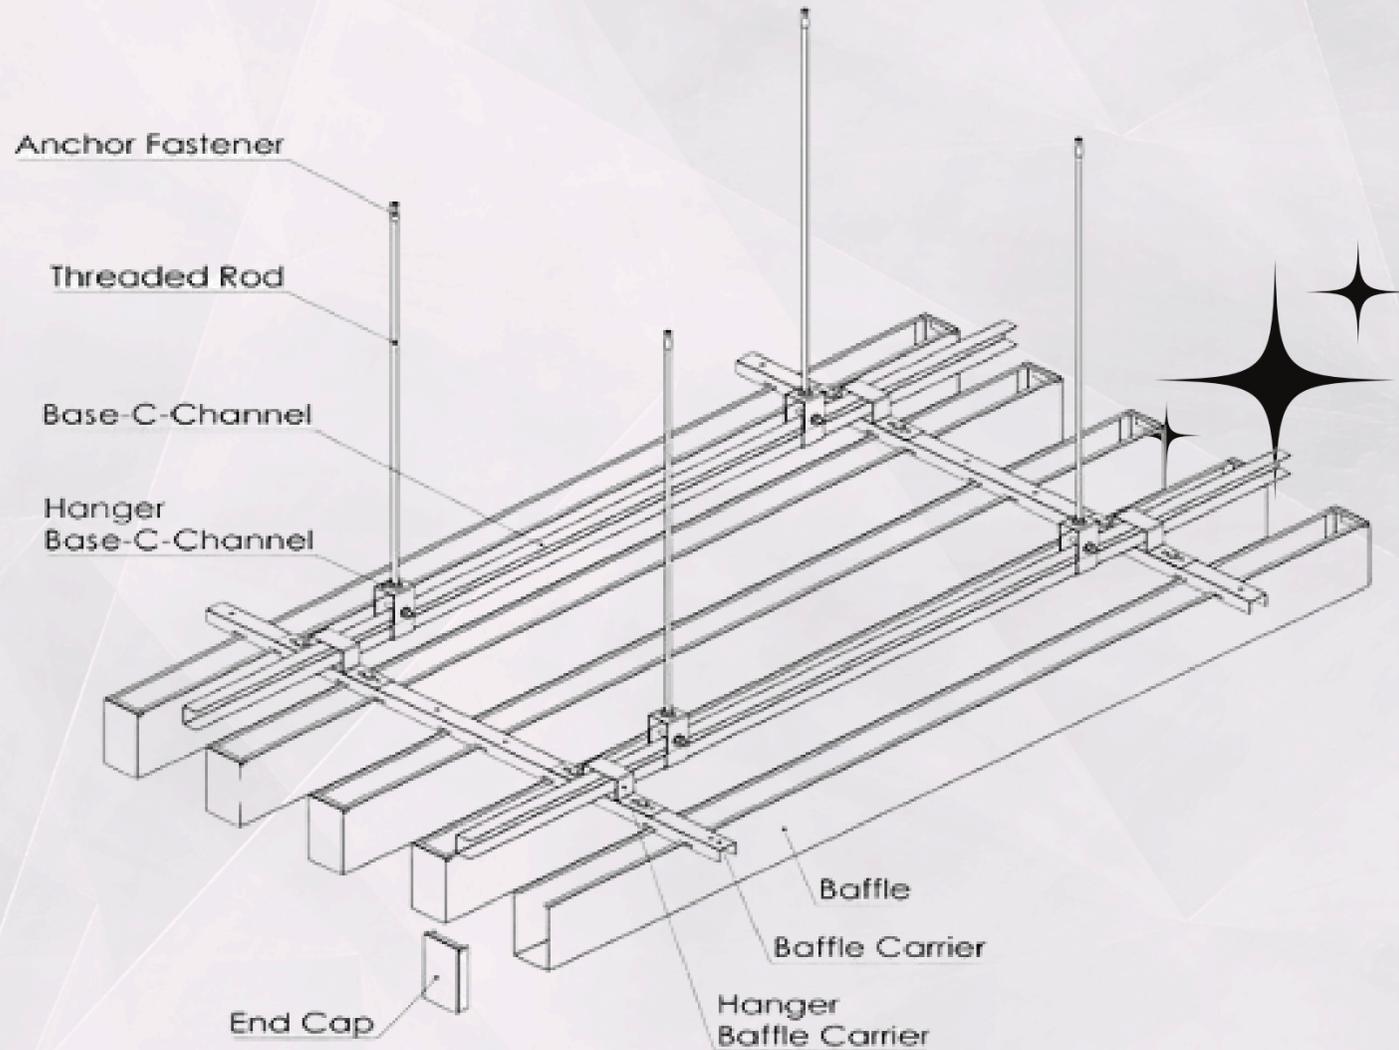

- It is made of Aluminium Extrusion
-
- Material : Aluminium Alloy 6063 T6
-
- Standard section sizes such as 25x100 (T 1.2), 25x150 (T1.4), 50x50 (T 1.2), 50x100 (T1.4), 50x150 (T1.6)
-
- Non Standard sections can also be provided based on availability
-
- Finish - Powder Coating with standard RAL colour and wood grains
-
- Length as per design requirement - Maximum 6M length

Metal Ceilings

Roll Formed Baffle Ceiling

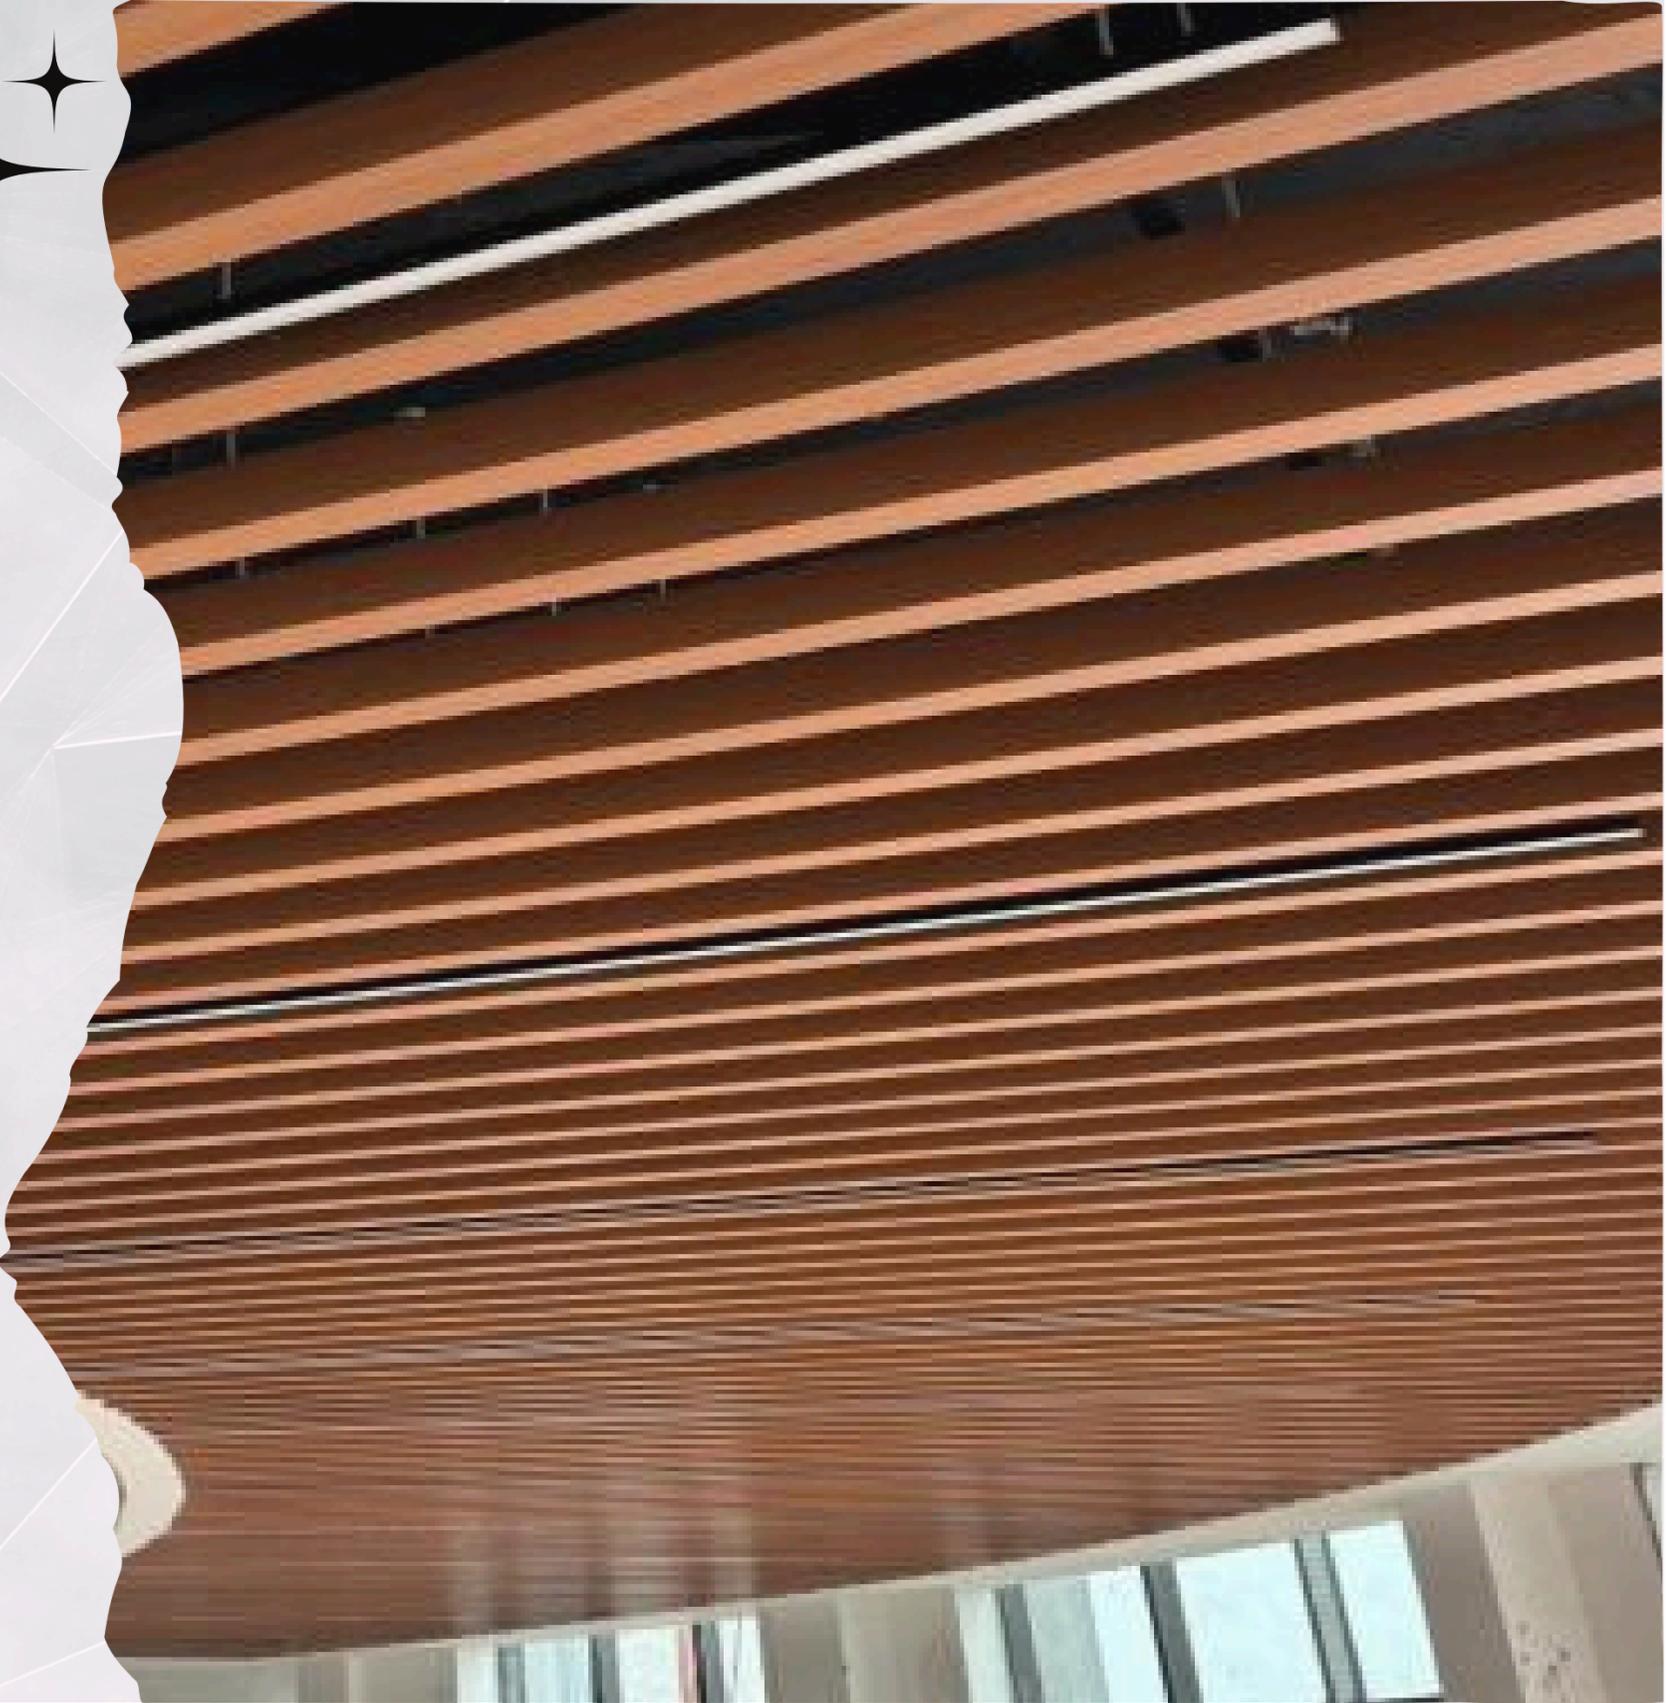

To bring in a unique design element and add a striking look to any space, Ceiflo's U-Baffle Metal Ceiling is economic and customizable, and can be easily installed in vertical and curved surfaces. Baffle ceiling possesses the charm of augmenting the appearance of any room because of its clean-cut design and high sound absorption quality. It's an open ceiling design with bolt-on panels that delivers a seamless look to any indoor space.

Metal Ceilings

Roll Formed Baffle Ceiling

- Material : Steel - BGL (Bare Galvalume - Al - Zn alloy coated steel Combination - 55% Aluminium 43.4 % Zinc & 1.6% Silicon).
- Sheet thickness 0.50 and 0.6 mm
- Standard section sizes such as 25x100 , 25x150, 50x50, 50x100 and 50x150
- Non Standard sections can also be provided in any size (Width : Min 20mm and Max 100mm ; Height : Min 50mm and Max 200mm)
- Finish - Powder Coating with standard RAL colour and wood grains
- Length as per design requirement - Maximum 4M length.

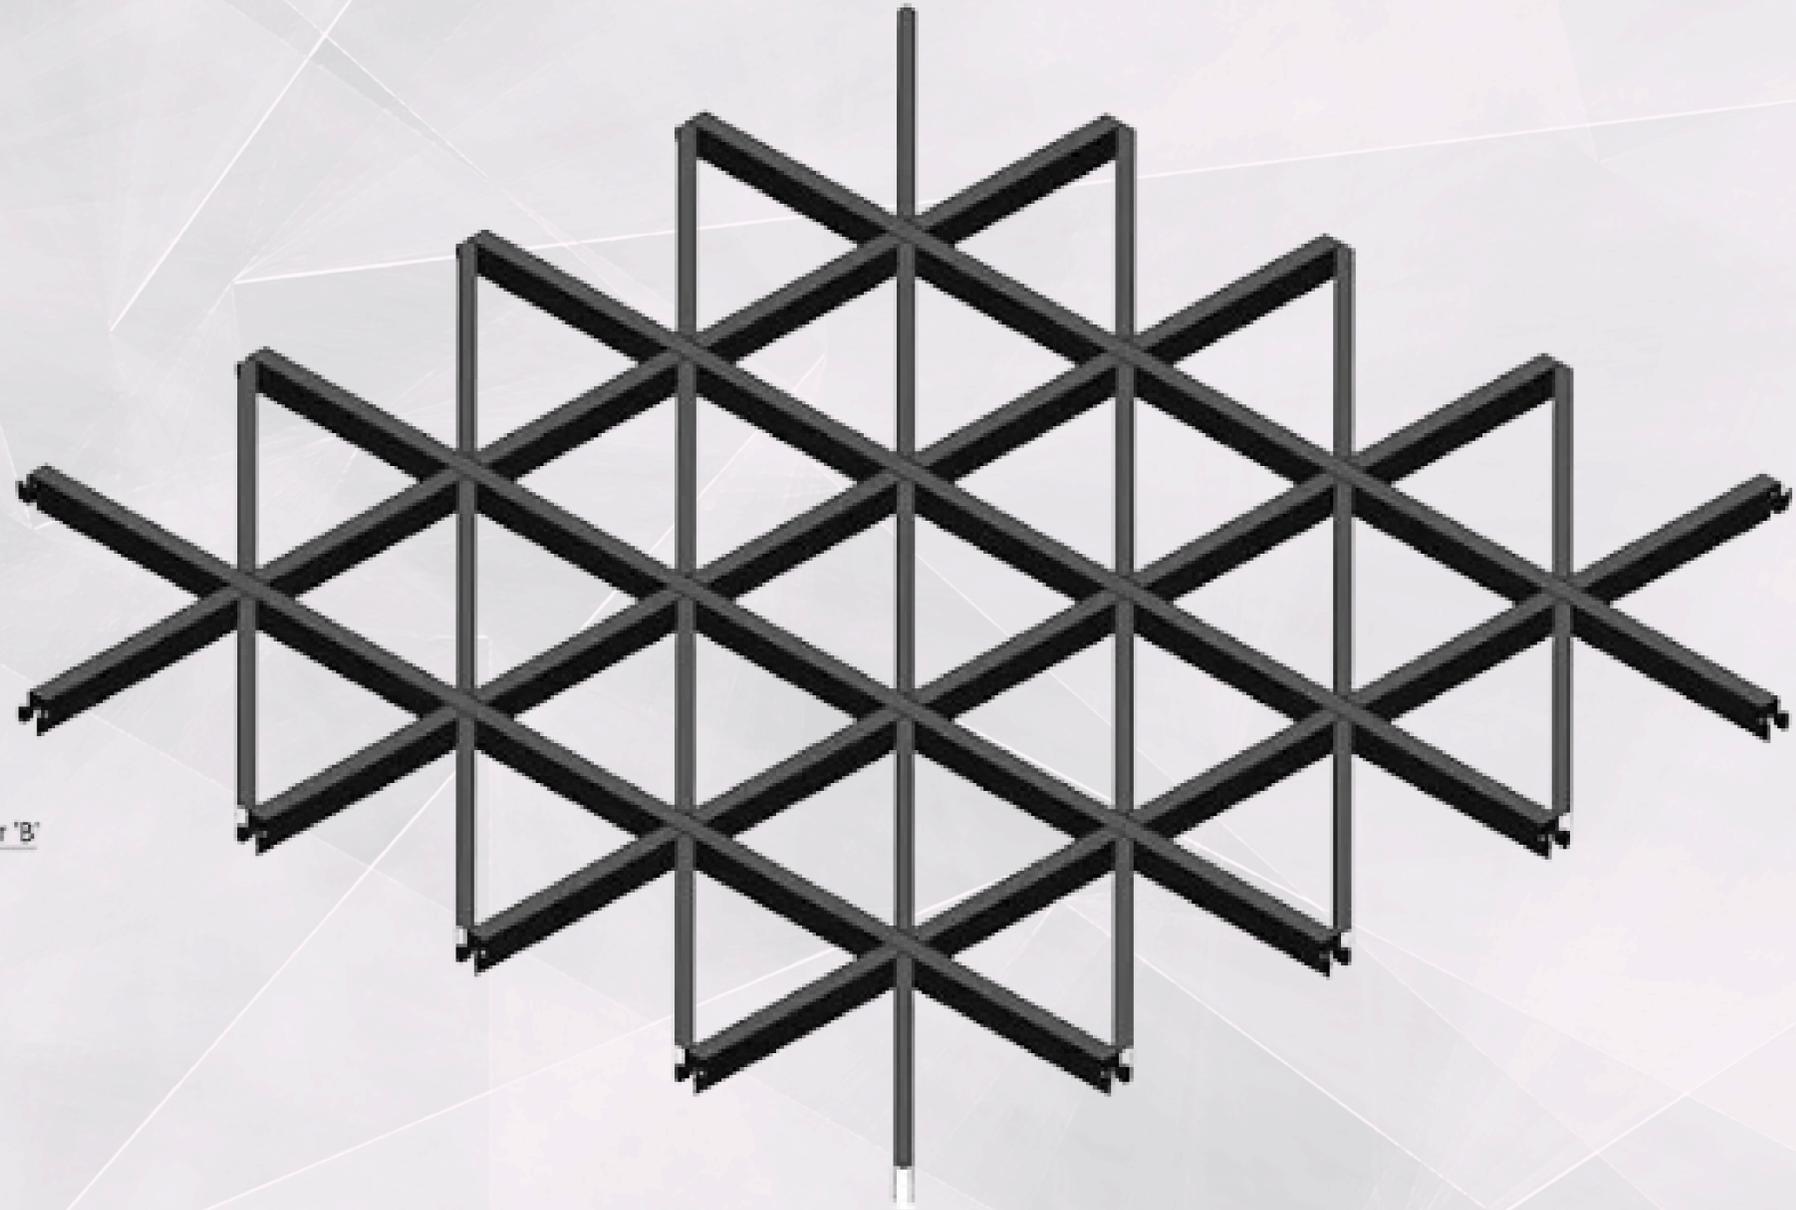

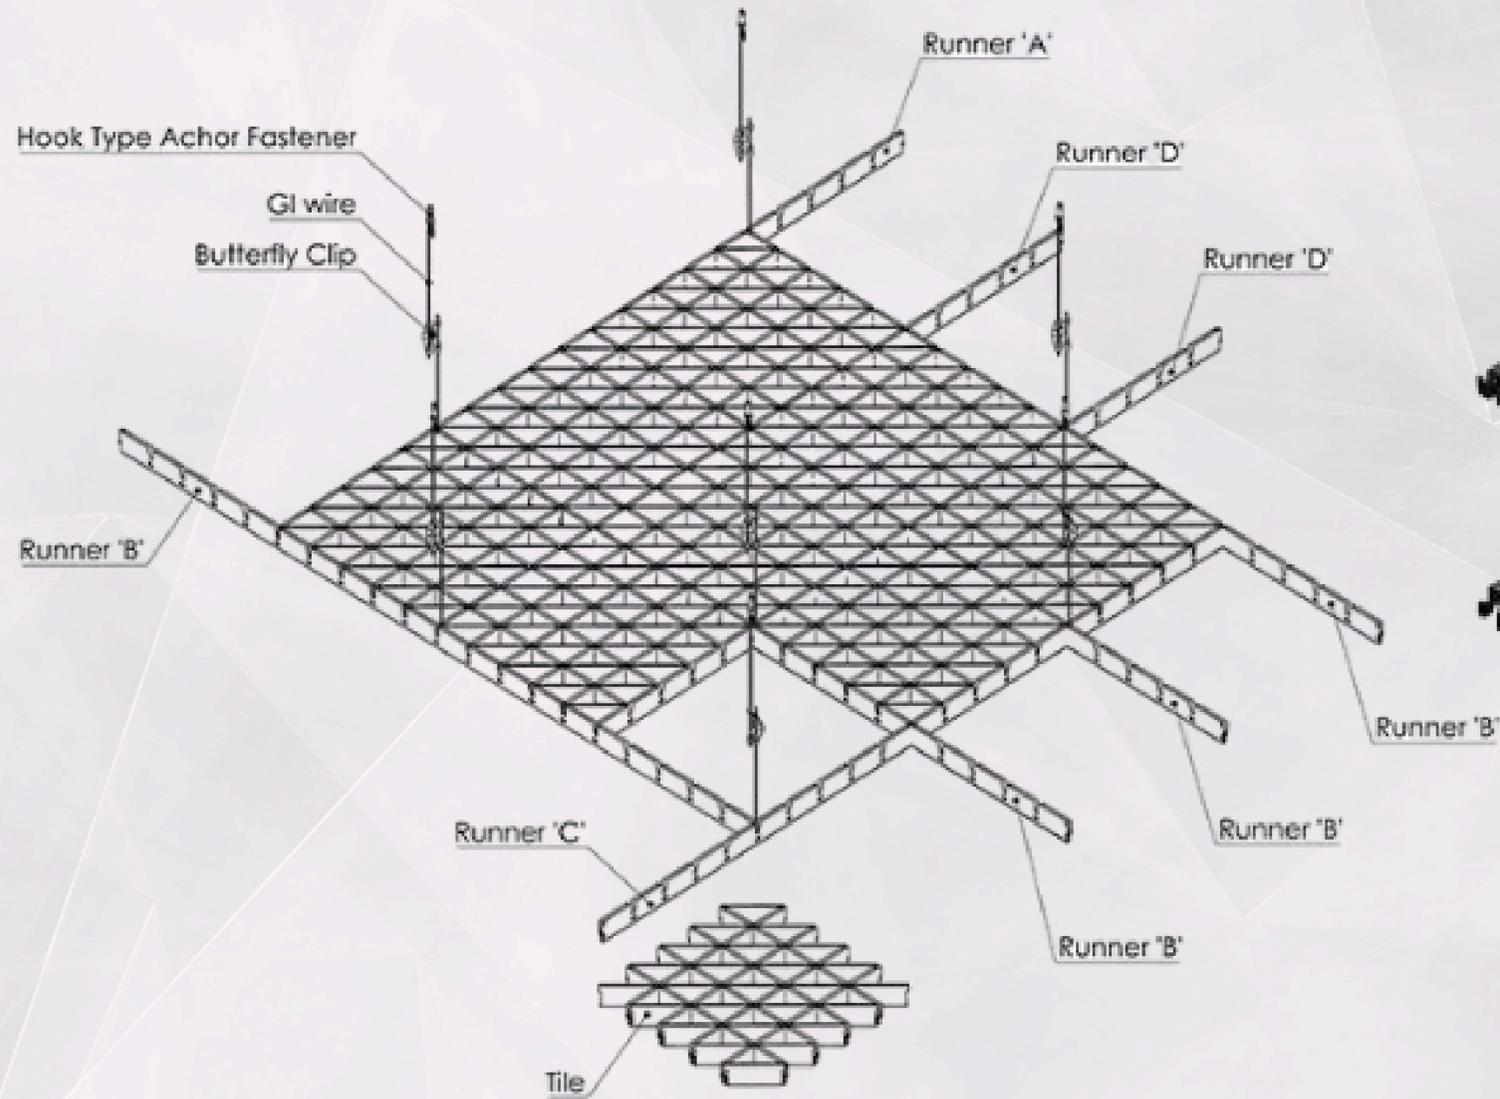

Metal Ceilings

Triangle Cell Ceiling

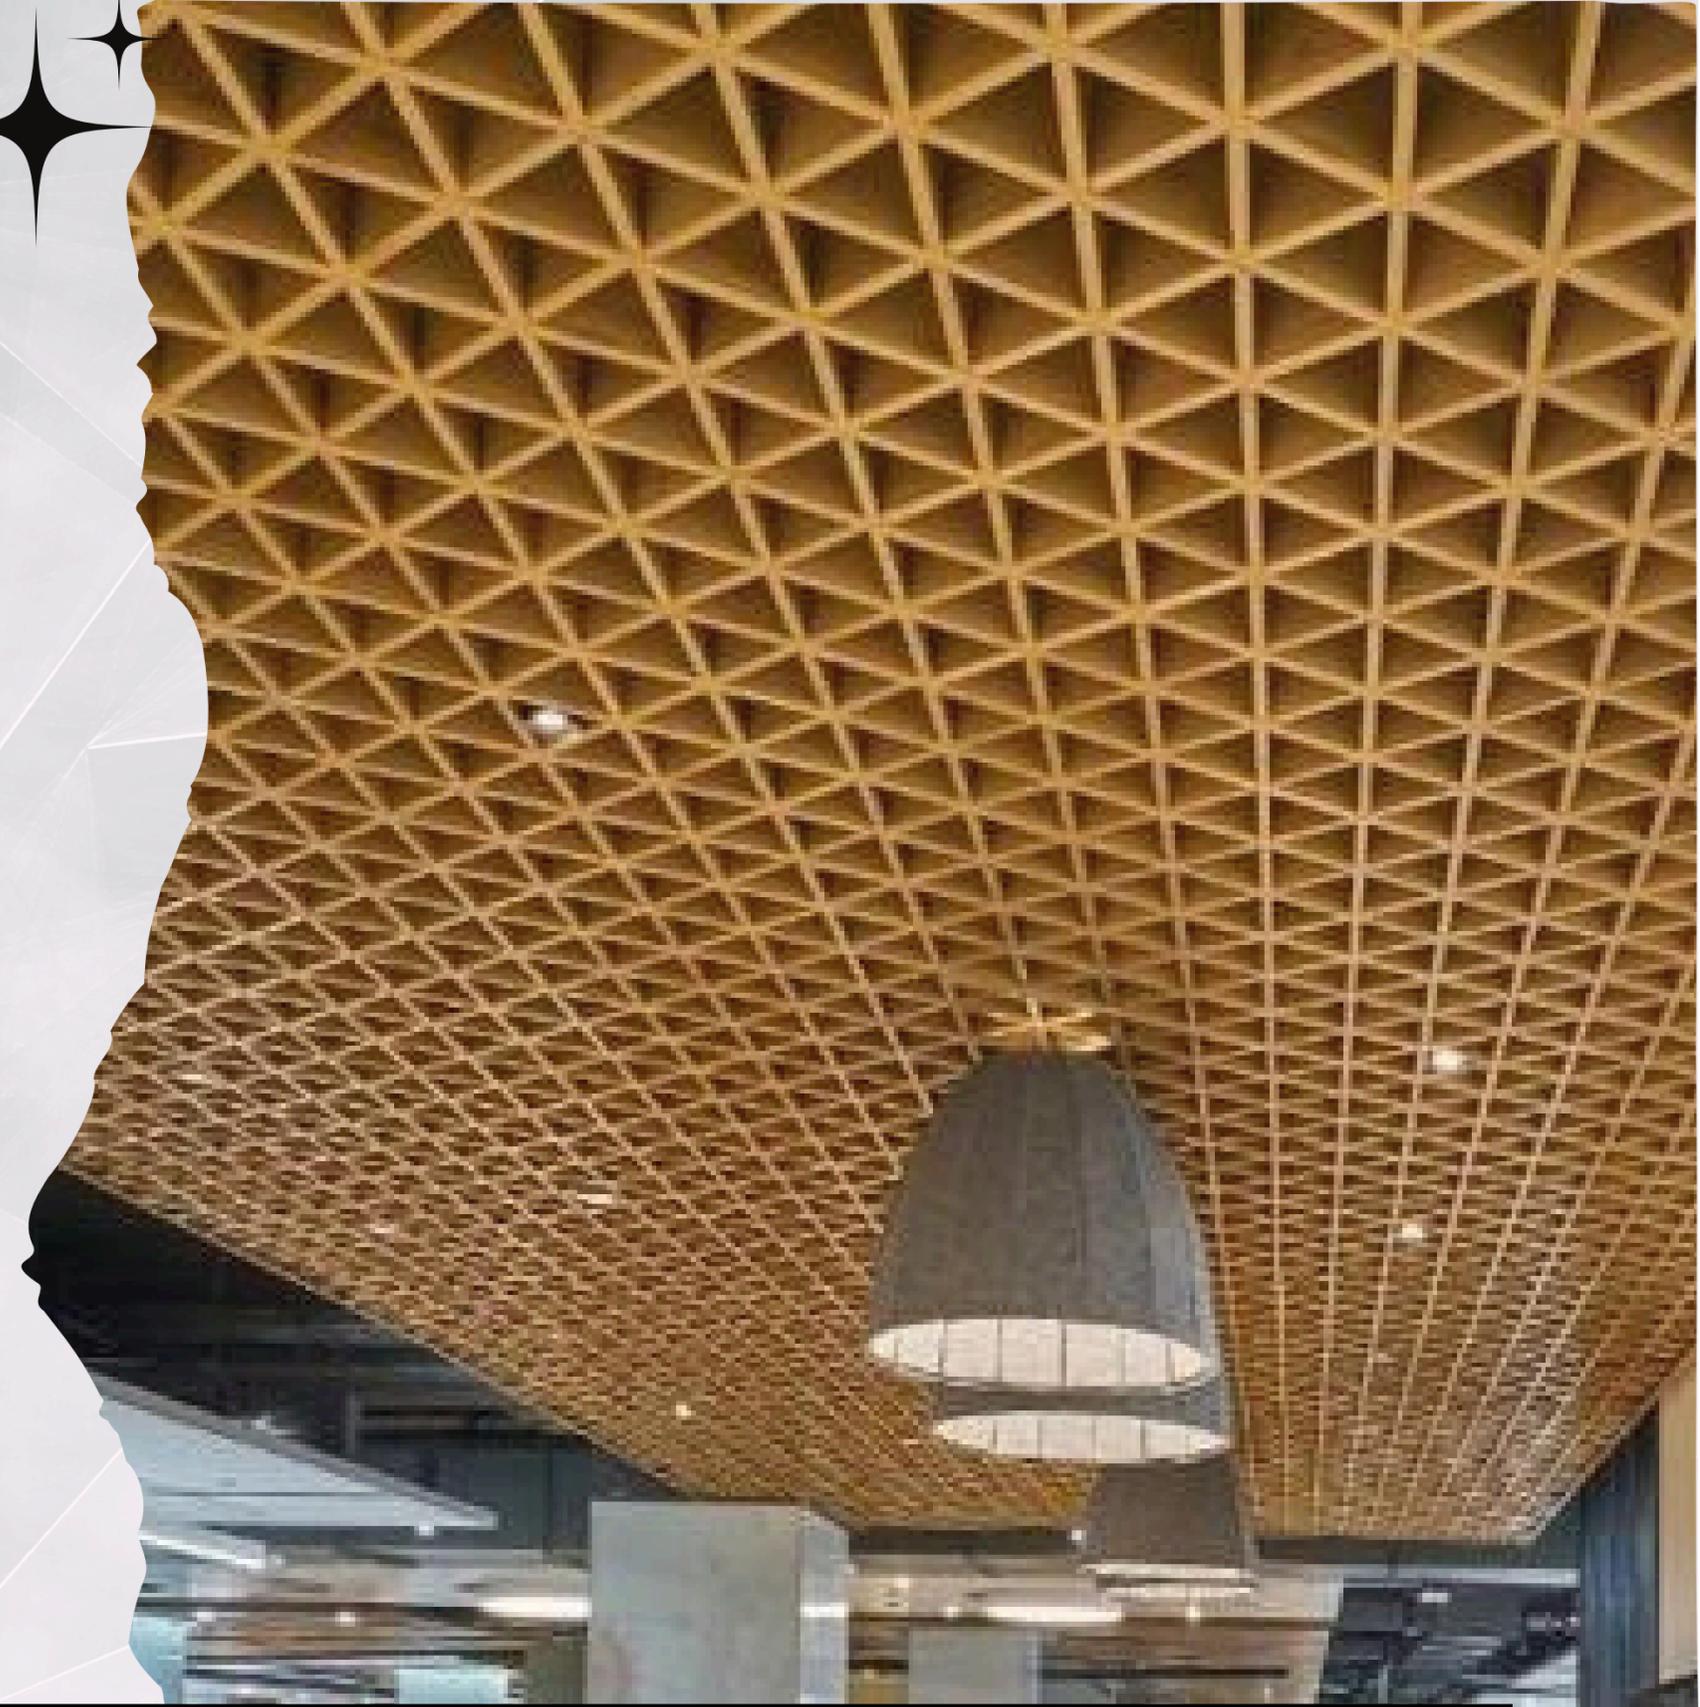

This high performance and soothing style of metal ceiling is all that you need to get the room a stylish makeover you dreamt of. Ideal for multiple set-ups and buildings, this interior metal ceiling system comes in standard sizes with powder finish coating, and is safety, security compliant.

Metal Ceilings

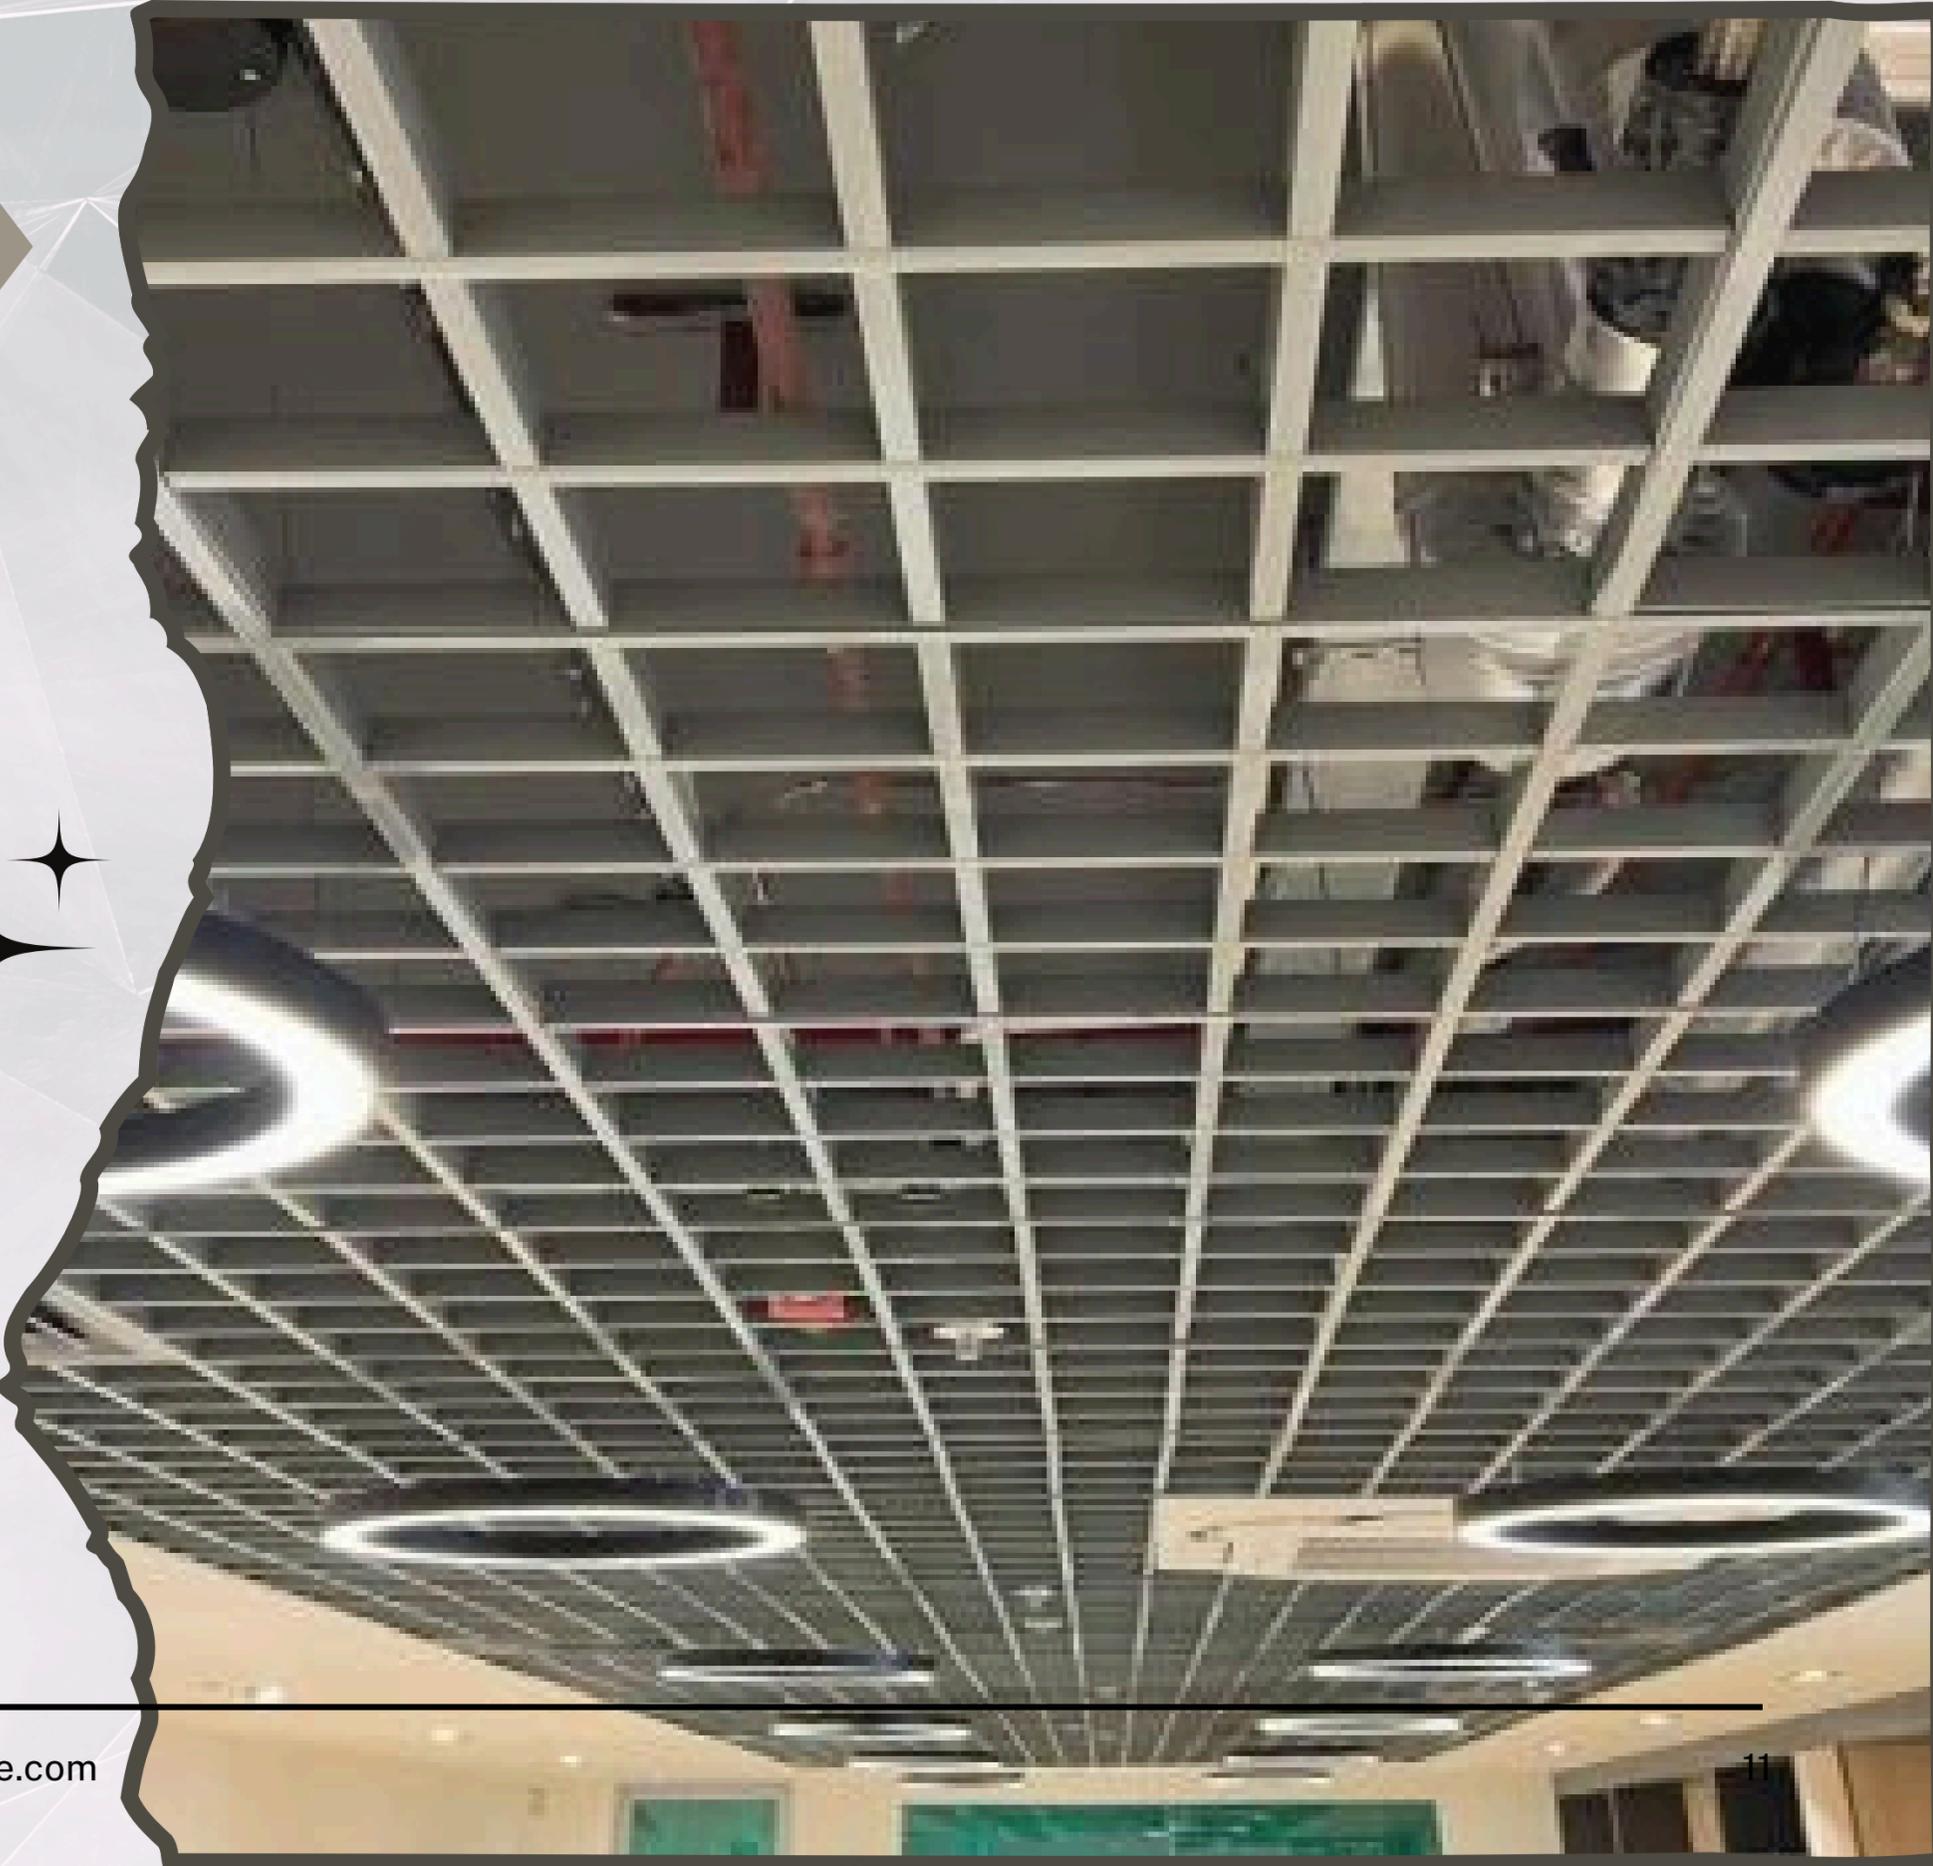

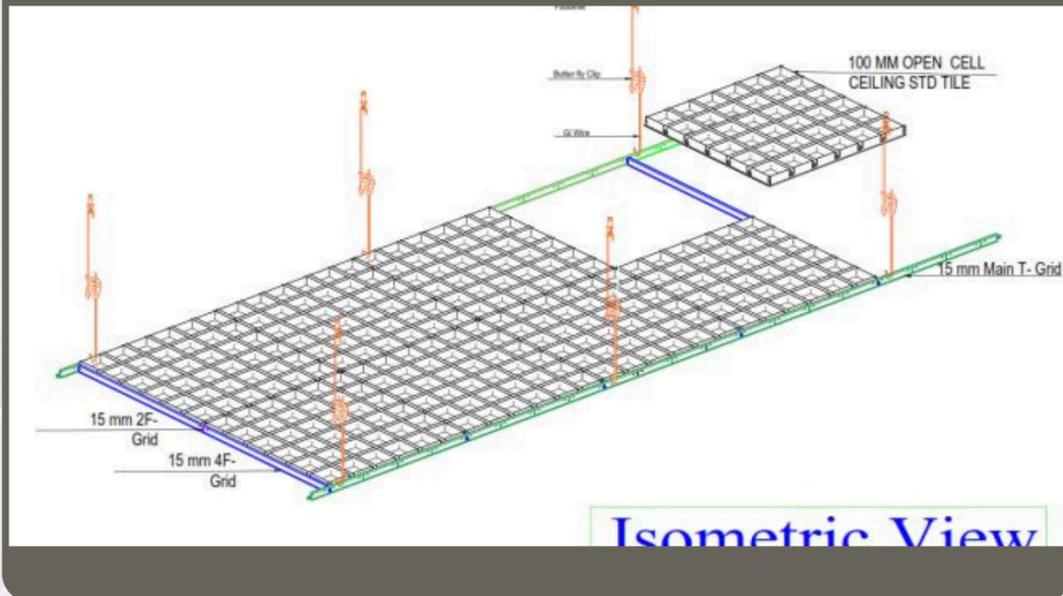

Triangle Cell Ceiling

- Material : Steel - BGL (Bare Galvalume - Al - Zn alloy coated steel Combination - 55% Aluminium 43.4 % Zinc & 1.6% Silicon).
- Sheet thickness 0.50 and 0.6 mm
- Standard section sizes such as 25x100 , 25x150, 50x50, 50x100 and 50x150
- Non Standard sections can also be provided in any size (Width : Min 20mm and Max 100mm ; Height : Min 50mm and Max 200mm)
- Finish - Powder Coating with standard RAL colour and wood grains
- Length as per design requirement - Maximum 4M length.
